

# **SOCIAL ROBOTICS AND SMART SYSTEMS APPLICATIONS (SRSSA) RESEARCH GROUP**

**Dr. Eng. Bima Sena Bayu Dewantara, S.ST, MT.**

**Bayu Sandi Marta, S.ST, MT.**

**Dewi Mutiara Sari, S.ST, M.Sc.**

**Surya Hotel, Tretes, Jawa Timur**

**December 2-3, 2022**

# About Social Robotics and Smart Systems Applications (SRSSA) RG

- Previously known as **Active Intelligent Systems Research Group (AIS-RG)**
- Established in 2019 (renamed in 2022)
- Active members:
  - 3 lecturers (1 senior (head) and 2 junior lecturers)
  - More than 10 applied master students/academic year
  - More than 20 applied bachelor students/academic year

**Bima Sena Bayu D.**  
(Head/Researcher)

**Bayu Sandi Marta**  
(Researcher)

**Dewi Mutiara Sari**  
(Researcher)

# Description

- **Social Robotics and Smart System Applications RG** is a group of research topics that emphasizes *computer science and engineering* approaches to solve engineering problems, especially in *Social Robotic Applications and Smart Systems Applications*.
- Research area:
  - Signal, Vision and Graphics
  - Pattern Recognition & Artificial Intelligence
  - Localization and Mapping
  - Planning and Control
  - Robot applications
  - Human-Machine/Robot Interaction

# Vision and Mission

- **VISION**

*To become a world-class research group in the field of social robotics and smart systems applications*

- **MISION**

1. To become a place for the application of multi-disciplines in the scope of computer science and engineering to create products that are useful and of high technological value
2. Spurring the growth of new technologies that are developed from a theoretical and practical perspective so that they can be implemented directly to have a positive impact on society
3. Implementing new ideas and development to provide added value to technology products

# Purposes

1. Carry out the development of knowledge that is theoretically or practically oriented which can have a positive impact on society.
2. Become a bridge for the application of multi-disciplines to create products that are useful and of high technological value.
3. Approaching the application of high technology to the wider community supported by new ideas and development to provide added value to technology products, especially in the fields of Electrical, Computer, Information Technology, Mechanics, etc.

# Research Area

### Signal, Vision and Graphics

**Face Recognition**

**Voice Command**

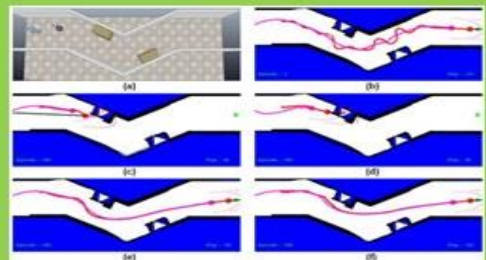

**People Detection & Tracking**

**Head Orientation**

### Robot Applications

**Robot Behaviors**

**UAV**

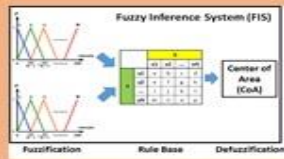

**Human-Robot Interaction**

**Robot Motion**

## Active Intelligent Systems

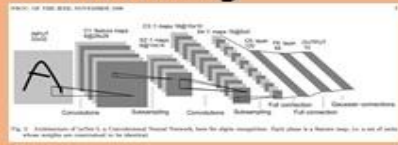

### Pattern Recognition & Artificial Intelligence

**Reasoning**

**Features/Descriptor Generation**

- Position (x,y)
- Pixel intensity I(x,y)
- Excitation
- Orientation
- 2nd order gradient X
- 2nd order gradient Y
- Local intensity deviation
- Global intensity deviation

**Learning**

**Optimization**

### Localization, Mapping, Planning and Control

**Motion Control**

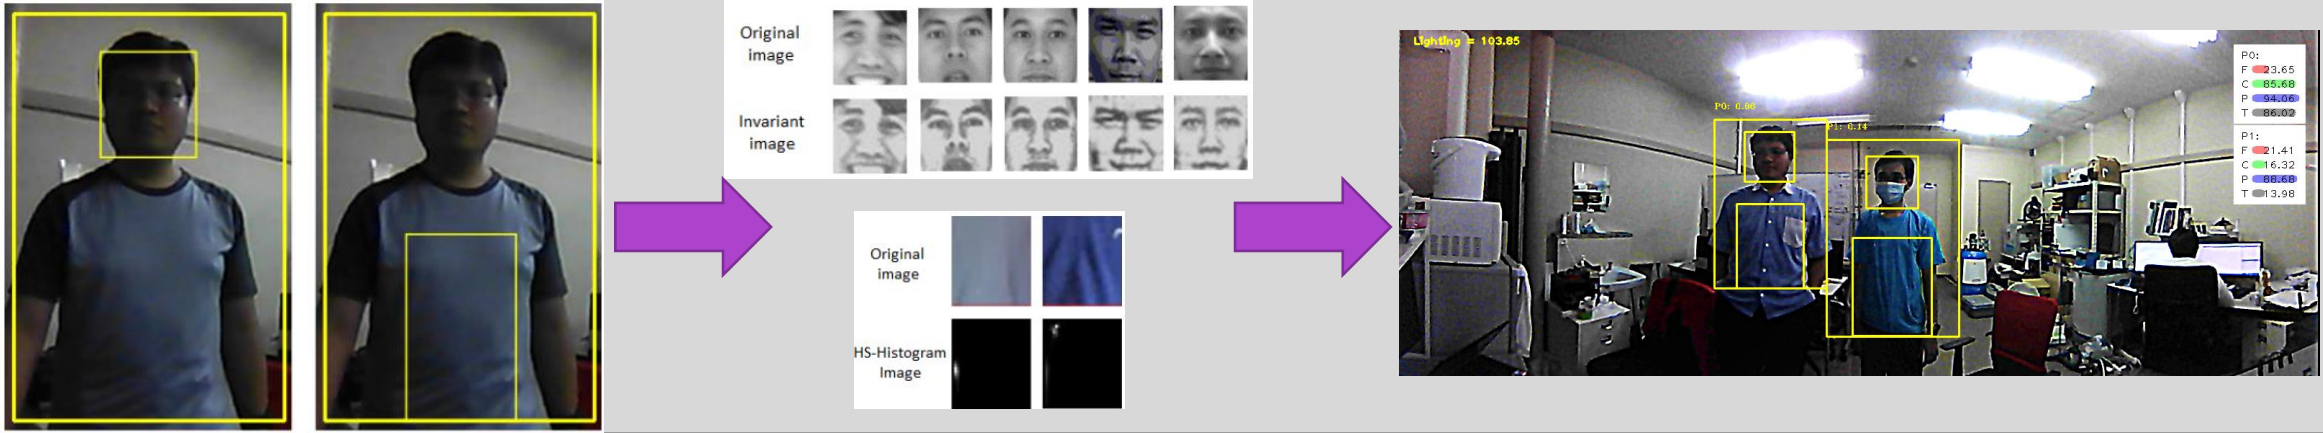

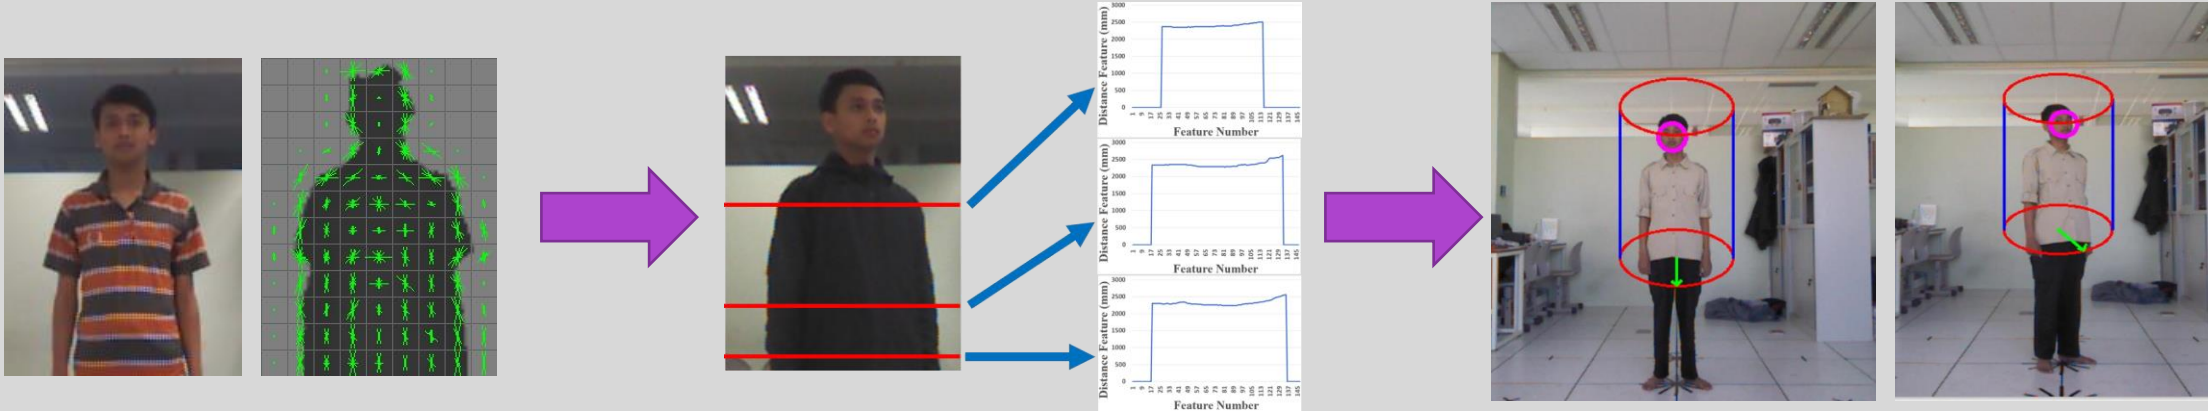

**Map Generation**

**Path Planning**

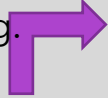

# Our Scientific Researches

# Our Scientific Researches

Scan Result

# Research Products

- 2 Patents
- 9 Copyrights
- Many Prototypes

**Illumination Invariant  
Face Recognition**

**Manipulator Robot  
Control**

**Human Body  
Orientation**

**Social Trash  
Bin Robot**

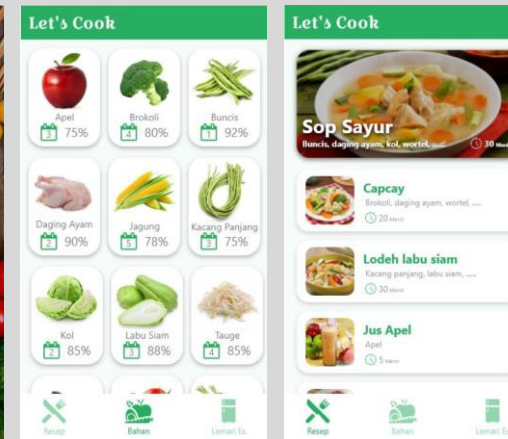

**Mobile Arrhythmia's  
Early Warning  
Systems**

**CV-based  
Shrimp Counter**

**IoT-based Application for  
Food Recommendation**

**Guide Robot**

# Our Contribution to RC and other RG

**RoISC**

- 1 international journals
- 4 national journals
- 11 international conf. papers

**Social Robotics  
and Smart System  
Applications**

**Aquaculture**

- 2 international journals
- 6 national journals
- 3 international conf. papers
- 1 paten + 1 HKI

**Ersow**

- 1 international journals
- 3 international conf. papers
- 2 national conf. papers

# Achievements

- Publications:
  - International Reputable Journals: 10 (2022: 1)
  - National Accredited Journals: 32 (2022: 15)
  - National Journals: 2
  - International Conference Papers: 75 (8 best papers, 2022: 14)
  - National Conference Papers: 18
- Intellectual Property Rights:
  - Patent: 2
  - Copyright: 9
- Books:
  - Book: 3
  - Monograph: 1

**Thank you**
